

HOW TO MEASURE YOUR DOG

A - **LENGTH** -FROM END OF NOSE TO BASE OF TAIL (Do NOT include tail)

B - **LEG** - LENGTH OF LEG FROM FLOOR TO ELBOW JOINT

C - **WIDTH** AT WIDEST POINT ACROSS SHOULDERS

D - **HEIGHT** -FROM FLOOR TO TOP OF HEAD OR EARS (if pointy)

- *We will provide guidance regarding the required crate size based on your dog's measurements.*
- *Dogs must be able to stand inside the crate without touching the top, lay in a natural position and turn around in their crate. Length of crate is determined by the specific airline regulations*
- *Snubbed nose breeds require 1 size larger crate, fighting breeds require CR82 reinforced crate*
- *Crate size for all cats traveling internationally is minimum of 28x21x22*
- *All crates must be IATA approved and meet airline requirements. Prior to airline acceptance, we require photos of your pet with their travel crate to ensure airline requirements are met*
